

# ...Now is the best time to arrange a funeral

...because you can choose what kind of funeral you would like instead of your family having to guess

...because if you also pay now at today's price you can avoid future price increases and beat inflation

...because, like making a will, it is too easy to put off. If you don't do it now the chances are you may never get around to it.

## There are two options...

### 1 Pre-arrangement

We will check what your wishes are and keep the details on our files. We will send you a letter of confirmation to give to your relatives or executor. The funeral can be paid for at the time by your family, or from the estate, in the usual way.

### 2 Prepayment

You choose the style of service required and pay for it now, at today's price. We guarantee to provide our services when required at no extra cost. For financial security, the funeral payment is held in Funeral Planning Trust until it is needed.

*It is not sufficient to leave funeral instructions in a will, as the will may not be read until after the service.*
